

Duggan Veterinary joins Access VetMed

8 September 2023

Access VetMed, the voice of the European industry of generic and added-value veterinary medicines, announced today that the company Duggan Veterinary joined the association as a new member.

For over 40 years, the family-owned business Duggan Veterinary has been dedicated to serving the needs of veterinary clinics, hospitals, and professionals in the United Kingdom and the Republic of Ireland. With a strong commitment to the well-being and health of pets and animals, Duggan Veterinary offers a wide range of high-quality products and supplies essential for effective animal care, and is a trusted partner in ensuring the well-being of animals and the success of veterinary practices throughout the United Kingdom and Republic of Ireland.

“I am very pleased to welcome Duggan Vet into our association,” Access VetMed Chair **Xavier Molins** said. “Together as an industry, we can continue our dedicated work to improve access to generic and added-value veterinary medicines and strengthen its significance in Europe”.

On its new membership, **Donal Duggan**, Managing Director of Duggan Vet, stated: “We are very appreciative and proud of the opportunity to join Access VetMed in 2023, where we will look to collaborate and continue to develop strategies with added input from our peers and colleagues within the European veterinary industry. Being part of a larger group of collective industry experts will provide access to advanced technologies, new therapeutic solutions, and innovative treatment approaches.”

Access VetMed

Founded in 2002 in Brussels, Access VetMed, represents the pharmaceutical industry of generic and added-value veterinary medicinal products in Europe. It promotes the interest of its members aiming to achieve a transparent, harmonised, pragmatic, and proportionate regulatory environment. Its guiding principle is to increase the availability of affordable, high quality, safe and effective veterinary medicinal products to veterinarians, and farm and companion animal owners across Europe.
